

Stop Deportation Center BER!

An "entry and exit center" is to be built on an area of 4 hectares at BER airport in Schönefeld by 2025. What is actually planned is a Deportation Center and a Prison! On the complex all restrictive asylum and deportation procedures are to be centralized, far away from society and solidarity structures. It will also include imprisonment.

At BER Airport, there is already a detention facility for migrants, refugees and travelers, the so-called "Ausreisegewahrsam", where up to 20 people are held to ensure their deportation. 120 places will be created for detaining people in the "custody and transit buildings" of the planned new deportation center.

This is part of a larger development of Germany's and the EU's racist border regime. Deporting more and faster, isolating those affected from the rest of society, and stopping migration movements before they even reach the European continent, if possible. We oppose this neocolonial and racist policy!
For freedom of movement and the unconditional right to stay for all!

Stop the Deportation Center at BER Airport!

How can you become active yourself?

- Exchange ideas with your neighbors and friends
- Write to Schoenefeld's mayor Christian Hentschel:
C.Hentschel@gemeinde-schoenefeld.de
- Appeal to local politicians
